SUMMARY

I am a full-stack developer with experience in the banking industry. My background helped me develop essential soft skills, which I now apply in the IT field. I have been self-learning IT through courses and personal curiosity. During my learning journey, I have done more than 8 pet projects.

HARD SKILLS

HTML, CSS, SCSS, JavaScript, Git, React, Node.js, Rest API, Webpack, Adaptive design.

SOFT SKILLS

Leadership & Team Management, Teamwork, Attention to detail, High adaptability, Client management.

PROJECTS

Personal Website[HTML, CSS, Java Script, Vite,Webpack[i18next,izitoast,email.js]]

<https://github.com/DBodies/myWebSite>.

Overview: A personal full-stack developer portfolio showcasing technical expertise, completed projects, and core skills. The website serves as a central hub for potential employers and clients..

Key Features: The websites feature smooth animations, responsive layouts, and structured navigation with multilingual support (Ukrainian, English), automatically adapting to browser preferences while offering a downloadable resume, a dynamic proverb for the designer's site, a structured project portfolio for the developer's site, and interactive contact forms for seamless communication.

Role: Developer.

Portfolio website for designer [HTML, CSS, Java Script, Vite,Webpack[i18next,izitoast,email.js]]

<https://github.com/DBodies/Valentyn>.

Overview: An interactive website created for a junior UI/UX designer. It presents the designer's skills, projects, and expertise while providing multiple ways to get in touch.

Key Features: The websites feature smooth animations, responsive layouts, and structured navigation with multilingual support (Ukrainian, English), automatically adapting to browser preferences while offering a downloadable resume, a dynamic proverb for the designer's site, a structured project portfolio for the developer's site, and interactive contact forms for seamless communication.

Role: Developer.
